

## The Reality Check Video Card – The #1 Community Policing Tool

The Reality Check Video Card (A \$35 free video) is given to churches, schools, youth organizations and parents by the police. *“This is compliments of our police department. We are here to help you and your family because we care”.*

The program fosters a great community relationship between the police and the community. Many communities have an **"Us Against Them"** mentality. By helping communities **BEFORE** something serious happens the police are part of the solution, not the problem.

### WHY IT WORKS:

1. Helping a parent’s son or daughter is the single best thing a police agency can do
2. After watching the video the kid might **"get it"** and change
3. The police have a new tool to give to the community
4. Increases officer moral
5. Positive media exposure
6. Larry Lawton is an Honorary Police Officer and gets police support
7. Larry Lawton is an ex-con and the community accepts him
8. Larry Lawton gives **HOPE** to a depressed community

When both sides believe in a program, change happens. Connecting with **BOTH** sides is why the **Reality Check Video Card** program works.

Larry Lawton is an Author, Speaker, TV Personality and Teen/Young Adult Expert. Larry developed the nationally recognized Reality Check Program; a court approved program. Larry speaks with thousands of young people yearly and is the first ex-con recognized on the floor of the *United States Congress* for his work with helping young people and the first ex-con in the United States to be sworn in as

an *honorary police officer*.
